PROFILE

As a dedicated Front-End Developer with expertise in React, I am committed to creating user-friendly applications by leveraging my proficiency in React and design skills. With a strong background in front-end development and design, along with my expertise in React.js, I am confident in my ability to seamlessly blend aesthetics and functionality to deliver compelling web applications.

WORK EXPERIENCE

Front-end Developer, Designer | Easy Technology k.k | Japan　　*2023.4 – Present*

Tech Stack: Next.js, TypeScript, Tailwind.css, Figma, STUDIO

・Work as a front-end developer for a Fintech start-up company focused on creating software for debt collections, using TypeScript and Next.js to build robust and user-friendly interfaces.

・Launch the product landing page with visually appealing and user-friendly designs using Figma and Studio, a No-Code web design platform.

・Collaborate with the designer to implement their vision, using Figma to ensure a seamless design-to-development process.

Frontend Developer, Designer | Freelance | Vancouver, BC　　*2022.5 – Present*

・**TelPeRFO (Live streaming service)**　　**Tech Stack: React.js, ChakuraUI, Figma**

Develop and design accurate and efficient UI components using React.js and Chakra UI, while proposing UI design enhancements with a user-centric approach.

・**Second-hand Book E-commerce**　　**Tech Stack: React.js, Tailwind.css, Figma**

Collaborated with a startup company based in Nigeria to deliver the project with contributing to the design and development of the site as a front-end Developer

Technical Support Specialist, Trainer | Japan Concentrix k.k | Japan　　*2019.5 – 2022.2*

Trained more than 130 employees successfully and received the Best Employee of the Quarter Award for my training achievements.

PROJECTS

Appointly　　**Tech Stack: React, MongoDB, Express.js, Node.js, Redux, Tailwind.css**

A team project to create and share customizable calendar availability with others, enabling them to book appointments, meetings, and events at pre-scheduled times.

MERN Note App　　**Tech Stack: React, MongoDB, Express.js, Node.js, Redux, Material UI**

Implemented user authentication using JWT and enabled features such as note creation, editing, deletion, and post liking.

Workout Tracker　　**Tech Stack: React, Material UI, Firebase**

A workout tracker recording app provides the store with the user information and their posts. Manipulating data with Firebase.

Sleep tight　　**Tech Stack: React, GSAP, Tailwind.css, Youtube Data API v3**

A web app only plays BGM-related relaxing sounds fetched by Youtube Data API.
Well designed the minimized styling to help the user to focus on sleeping.
